PRESENTATION OF SHAREHOLDER PROPOSALS

The Bank received, within the prescribed timeframe, four proposals from *Mouvement d’éducation et de défense des actionnaires* (MEDAC), which included: (1) “A Democratic Nomination Process of Two Directorships”, (2) “Commitment Towards Decarbonation”, (3) “Certification of Sound Commercial Practices Related to the Selling of Financial Products and Services”, and (4) “Equity Ratio Disclosure”. The text for these proposals can be found in Schedule A of the Bank’s Circular.

The Chair informed shareholders at the Meeting that following discussions, MÉDAC agreed not to submit proposals (2), (3) and (4) to shareholders' votes at the Meeting.

Nonetheless, the MEDAC representative was given the opportunity to present all four (4) proposals at the Meeting, following which only proposal 1 - *A Democratic Nomination Process of Two Directorships* was submitted to shareholders' vote.

In response to the four proposals, as are described in greater detail in Schedule A of the Bank's Circular, the Chair provided the following responses:

Proposal 1: A Democratic Nomination Process of Two Directorships

The Bank, through its Human Resources and Corporate Governance Committee, considers its current director nomination process to be efficient in nominating optimal candidates for appointment to the Board. This selection and nomination process is outlined in detail in the Bank's Circular.

As per the "*Nomination by Shareholders*" section of the Circular and applicable regulations thereof, any shareholder or group of shareholders holding more than 5% of shares of the Bank may propose the appointment of a director and have it included in the Circular. In addition, it is always possible for a shareholder to submit a nomination to the Human Resources and Corporate Governance Committee.

Proposal 2: Commitment Towards Decarbonation

The Bank is actively managing its exposure to environmental risks and is committed to reducing its environmental footprint while promoting concrete decarbonation initiatives.

In addition to the initiatives outlined both in the Bank's response to this proposal in its Circular and that in its Social Responsibility Report, the Bank has been submitting every year since 2007 its responses to the carbon-related questionnaire of CDP (formerly the Carbon Disclosure Project).

The Bank is aware that several financial institutions are participating in a pilot project to enable consistent scenario-based analysis throughout the banking sector, as recommended by the Task Force on Climate-Related Financial Disclosures (TCFD). The Bank is committing itself to monitor the progress of this project and to review results as they become available to determine how to adapt its practices and disclosure, as appropriate. Finally, the Bank will evaluate the opportunity to adhere to the TCFD.

Proposal 3: Certification of Sound Commercial Practices Related to the Selling of Financial Products and Services

In 2017, the Bank took note of the Canadian Broadcasting Corporation's report on the potential usage of excessive sales practices by certain Canadian financial institutions. This report led to the publication by the Financial Consumer Agency of Canada (FCAC) of a report on its review of the retail sales practices of Canadian banks. The Bank takes this situation seriously and as a result, performed the necessary verifications to ensure its sales practices meet the highest standards of integrity. In addition to what is described in the Circular in response to this proposal, the Bank reiterates that not only does it expect its directors, senior executives and employees to act with honesty, integrity and the highest standards of service, but it also sets guidelines, rules, and practices to ensure this.

Proposal 4: Equity Ratio Disclosure

Since 2001, the Bank has been disclosing the number of full-time equivalent employees in its Annual Report. This information can also be found in the Bank's Social Responsibility Report. In the interests of transparency and to provide shareholders with objective data enabling them to examine the compensation of its officers, the Bank undertakes to continue to provide this information on an annual basis.

SPEECH BY THE EXECUTIVE VICE-PRESIDENT AND CHIEF FINANCIAL OFFICER

Mr. Laurin highlighted the Bank's financial results for the year ended October 31, 2017, and the quarter ended January 31, 2018.

RECEIPT OF THE FINANCIAL STATEMENTS AND THE AUDITOR'S REPORT

The Bank's consolidated financial statements for the year ended October 31, 2017, and the auditor's report thereon, which had been previously mailed to shareholders, were presented at the Meeting. These financial statements and the auditor's report were declared to be officially received.
