(2) "All-in" regulatory capital ratios include all of the regulatory adjustments that will be required by 2019 but retains the phase-out for non-qualifying capital instruments between 2013 and 2022. (3) Mainly comprised of deductions for software and other intangible assets, goodwill and pension plan assets.

(4) The countercyclical buffer as at January 31, 2018 was nil, as all private sector credit exposures were either in Canada or the United States.
